

COMPLIANCE STATEMENT REGARDING PROXIMITY FIREFIGHTING PROTECTIVE HOODS MANUFACTURED BY MAJESTIC FIRE APPAREL, INC.

Majestic Fire Apparel, Inc.'s personal protective equipment (PPE) products are designed with overall quality, end-user safety, and environmental considerations in mind. Our products are manufactured to meet the requirements outlined in NFPA 1970-2025, *Standard on Protective Ensembles for Structural and Proximity Firefighting, Work Apparel, Open-Circuit Self-Contained Breathing Apparatus (SCBA) for Emergency Services, and Personal Alert Safety Systems (PASS)*. They are further supported by an effective system of quality management controls, which includes procedures for reviewing raw materials and utilizing test data from third parties to support our compliance with the NFPA Standard.

Based on information from our suppliers and available test data, we make the following statements regarding our Proximity Firefighting Hoods.

PFAS DISCLOSURE STATEMENT –

Majestic Fire Apparel, Inc. PROXIMITY FIREFIGHTING HOODS

Majestic Fire Apparel, Inc. does not intentionally alter, add, or introduce PFAS chemicals during our assembly processes for the manufacturing of proximity firefighting protective hoods.

Majestic Fire Apparel, Inc. Proximity Firefighting hoods are certified to the 2025 edition of *NFPA 1970, Standard on Protective Ensembles for Structural and Proximity Firefighting, Work Apparel, Open-Circuit Self-Contained Breathing Apparatus (SCBA) for Emergency Services, and Personal Alert Safety Systems (PASS)*.

NFPA 1970 includes mandatory restricted-substance requirements applicable to protective hood materials, including requirements addressing specified PFAS chemicals. Majestic Fire Apparel, Inc.'s applicable protective hood materials have been evaluated in accordance with these requirements as part of our NFPA 1970 certification.

Separate from the mandatory restricted-substance requirements, the standard provides for an optional total fluorine labeling claim when applicable base materials meet the specified total fluorine threshold of 100 ppm or less.

Majestic Fire Apparel, Inc.'s current NFPA 1970-2025 proximity firefighting hood materials have not undergone the optional total fluorine testing necessary to verify compliance with the 100 ppm or less threshold.

Accordingly, Majestic Fire Apparel, Inc. does not currently represent or label these products as meeting the NFPA 1970 optional 100 ppm or less total fluorine claim.

This does not mean that the products contain PFAS above 100 ppm. Rather, Majestic Fire Apparel, Inc. has not performed the optional total fluorine testing necessary to substantiate that specific claim.

Majestic Fire Apparel, Inc. therefore does not make a general "PFAS-free" claim for these products.

CALIFORNIA PROPOSITION 65 -

Majestic Fire Apparel, Inc. PROXIMITY FIREFIGHTING HOODS

Majestic Fire Apparel, Inc. does not alter the inherent chemical properties of any fabric used in our assembly processes for the manufacturing of proximity firefighting hoods.

We purchase various fabrics from textile manufacturers that are incorporated into our proximity firefighting hoods.

Based on information currently available from our material suppliers, our products may contain chemicals known by the State of California to cause cancer, birth defects, or other reproductive harm.

It is our ongoing commitment to comply with applicable health, safety, and environmental regulations, and we continue to reevaluate our products as these regulations evolve.
If you have any questions concerning the safe use of our products or require additional information, please contact Majestic Fire Apparel, Inc. at 610-377-6273.

The provisions of this Compliance Statement supersede and replace all other certificates and/or communications (whether written, verbal, or otherwise) previously delivered relating to the above Majestic Fire Apparel, Inc. products.

You are responsible for determining the suitability of the product(s) under actual conditions of handling and end-use in accordance with the applicable regulatory requirements specific to your area, state, or country. Nothing in this Compliance Statement shall be construed as a warranty of any kind with respect to the product, express or implied, regarding merchantability or fitness for a particular purpose. Majestic Fire Apparel, Inc. does not independently test finished products for compliance with every chemical or environmental regulation and may rely upon compliance information and declarations received from our material suppliers. Due to many factors beyond our knowledge and control that can affect the use of these products, we cannot accept liability for any injury, loss, or damage resulting from reliance upon such information. Our statement is based on our current level of knowledge and applies to products as supplied by Majestic Fire Apparel, Inc. at the date of issue. Since conditions of use are outside our company's control, Majestic Fire Apparel, Inc. makes no warranties, express or implied, and assumes no liability in connection with any use of this information.
