

COMPLIANCE STATEMENT REGARDING WILDLAND FIREFIGHTING PROTECTIVE GLOVES BY MAJESTIC FIRE APPAREL, INC.

Majestic Fire Apparel, Inc.'s personal protective equipment (PPE) products are designed with overall quality, end-user safety, and environmental considerations in mind. Our products are manufactured to meet the requirements defined in NFPA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting and Urban Interface Fire Fighting. They are further supported by an effective system of quality management controls, which includes procedures for reviewing raw material and utilizing test data from third parties to support our compliance with the NFPA Standard.

Based on information from our suppliers, we make the following statements regarding our Wildland Firefighting GLOVES.

Disclosure for Use of PFAS in Majestic Fire Apparel, Inc. WILDLAND FIREFIGHTING GLOVES

Majestic Fire Apparel, Inc. does not alter, add, or utilize the use of PFAS chemicals in our processes in the distribution of wildland firefighting protective gloves.

We are committed to providing high-quality products through our carefully selected network of trusted suppliers and partners.

Our suppliers select barrier fabrics, which are purchased from textile manufacturers for incorporation into the manufacture of wildland firefighting protective gloves.

Based on the information provided by these barrier fabric suppliers, their fabrics contain polymer compounds, with some fabrics also including durable water-repellent finishes, which fall under the definition of PFAS chemicals. These polymer compounds and finishes are critical to firefighter safety and aid in reducing firefighters' risk from extremely dangerous exposures.

These barrier fabrics meet the minimum performance and design criteria mandated by NFPA 1977 for wildland firefighting gloves.
