NFPA 1970 STANDARD SIZE CHART

NFPA 1970-2025 has introduced mandatory numerical sizing (64-82) in two widths, narrow (N) and wide (W).

HOW TO MEASURE YOUR HAND

To determine the best size and fit, **measure your index finger** (refer to diagram A) from the palm crease to the fingertip in millimeters. This will give you the closest numerical size.

Now **measure across the top of your knuckles** (refer to diagram B). In this example the glove size would be a 76W. Find the corresponding size/width based on diagram C to determine your glove size.

STRUCTURAL FIREFIGHTING GLOVES

M7G KANGAROO LEATHER GAUNTLET

The M7G glove combines premium kangaroo leather construction with a 3D-curved, ergonomic design that mirrors natural hand movement for superior control.

Engineered for protection, the gloves feature a Porelle® moisture and bloodborne pathogen barrier, a Kovenex® liner for flame, cut, and puncture resistance, reflective trim for enhanced visibility, heat-resistant, water-repellent materials that won't melt, drip, or ignite in extreme conditions, and a 60+ TPP rating for advanced thermal protection.

The gauntlet cuff features a cinched wrist and leather pull-tab, keeping your gloves in place as you tackle any task.

WILDLAND FIREFIGHTING

MFA84 GAUNTLET

PERFORMANCE FEATURES

- Abrasion protection
- Cold temperature protection
- Contact heat protection
- Cut resistant
- Direct contact with heated object protection
- Flame protection
- Glove hand function with tools
- Gripping abilities
- Conductive heat transfer protection
- Heat protection
- Puncture protection
- Water repellent
- Will not melt, drip, nor ignite

DESIGN

- 1 HAND**
 - 2D
- 2 PALM**
 - Reinforced palm
- 3 FINGERS**
 - Liner sewn into fingertips (to prevent liner pullout)
 - Winged thumb
- 4 CUFF**
 - Gauntlet
 - Shirred elastic wrist (cinched wrist)
 - Cuff extended (3" long debris cuff)

MATERIALS

- BACK OF HAND**
 - Cow Split Leather
- FINGERS**
 - Cow Split Leather
- LINER**
 - Modacrylic Knit
- PALM**
